

# Immunization In-Progress Form

This letter extends the immunization submission requirement through July 24, 2024, for students requiring additional time to complete their form.

In the state of South Carolina, schools are required to have documentation of a student's completed immunization record or an exemption form/certificate. This documentation needs to be completed and turned in prior to the first day of school.

If your student is up to date on all required immunizations, their exemption form is complete (signed by a healthcare provider), please upload which applies in your student's registration portal.

Please note the following immunizations are required by law:

- Hepatitis A
- Hepatitis B
- DTaP (tetanus, whooping cough)
- Polio
- MMR (measles, mumps, rubella)
- Varicella (chickenpox)
- Tdap (whooping cough booster)

We understand some families will not see their doctor to attain updated records until after registration is closed. If this applies to your family, please check one of the following and upload this letter into your student's registration portal.

- ☐ In progress of obtaining a completed immunization record
- ☐ In progress of obtaining a medical exemption form signed by a healthcare provider
- ☐ In progress of obtaining a Certificate of Religious Exemption from a local health department office

This letter allows an extension until July 24, 2024, to turn in all completed immunization records and signed exemption forms.
